TIMBERGRAIN FIBERGLASS

Door Code: 2P34T
Door Type: Timbergrain Oak
Glass Type: Clear

Timbergrain doors are constructed of high-resolution grained fiberglass skins. The stronger dimensions offer deeper shadow lines in the panels.

Timbergrain fiberglass doors offer the warmth of wood and its natural variation of grain characteristics in Cherry, Mahogany, Fir, Oak, and Knotty Alder.

Cherry | Mahogany | Fir | Oak | Knotty Alder

Key Features

- Engineered not to crack, splinter, warp, rot or delaminate
- 1/10" thick high-impact molded fiberglass reinforced skins
- Advanced polyurethane foam core enhances sound proofing and provides high insulation properties
- 1" composite top and bottom rail offer additional protection against water infiltration, mold, and insects
- 4" full-length hinge and lock stiles
- Square 1/2" Alaskan Yellow Cypress edges give a true wood door appearance and are rot-resistant
- Equipped with the adjustable hinge plate system (optional)
- Simulated divided lites in various patterns
- Carries a U-factor of .18
- Limited lifetime warranty

CAMBRIDGE SMOOTH STEEL

Smooth steel doors are designed for strength, security and durability. This premium, insulated door system is constructed with a full steel-edge perimeter and offers an industry-leading Grade 40 Security Rating.

Smooth steel doors are available with an optional adjustable hinge plate system. This allows the homeowner to easily adjust the door with a screwdriver without removing the door from its hinges to achieve a perfect fit.

Key Features

- Constructed of 22-gauge or 24-gauge hot-dipped galvanized steel for rust protection and durability
- Fire-rated 20 or 90 minutes
- Baked-on polyester primer accepts exterior grade latex paint
- Carries a U-factor of .17
- Resists cracking, splitting, warping, twisting or rotting
- 4” x 10” composite lock block with a 1” diameter edge bore, and a 2-1/8” diameter face bore at 2-3/4” or 2-3/8” backset
- Limited lifetime warranty for 22-gauge and 10-year warranty for 24-gauge

NORWOOD STAINABLE STEEL

Norwood stainable steel doors are constructed with architecturally-correct stiles and rails, with a deeply embossed Oak wood grain surface that is enhanced through the staining process.

These doors are fully insulated with an inner core of polyurethane foam, which provides superior thermal performance and greater energy efficiency.

Door Code: 6P
Door Type: Stainable Steel

Key Features

- Constructed of 22-gauge steel, which is 40% thicker than 25/26 contractor grade slabs
- Full steel-edge perimeter provides additional strength and a Grade 40 security rating
- Special beige primer allows for staining
- 4” x 10” composite lock block with a 1” diameter edge bore, and a 2-1/8” diameter face bore at 2-3/4” or 2-3/8” backset
- Fire-rated 20 or 90 minutes
- Resists denting, cracking, splitting, warping and twisting
- Carries a U-factor of .17
- Adjustable Hinge Plate System
- Limited lifetime warranty

TRUGRAIN™ STEEL

Door Code: 2P Shaker
Door Type: Trugrain Brimley

Trugrain™ is a pre-finished, insulated steel door that combines the look of wood with the strength of steel. It's constructed of 22-gauge hot-dipped galvanized steel with polyester coating, creating a realistic wood grain appearance.

Trugrain™ steel doors are ideal for light commercial and multi-family applications, both new construction and renovation.

Key Features

- The polyester coating is extremely durable and is available in four wood grains: Holland, Ludington, Rockport, and Brimley
- No finishing or maintenance required
- 4" x 10" composite lock block with a 1" diameter edge bore, and a 2-1/8" diameter face bore at 2-3/4" or 2-3/8" backset
- Fire-rated up to 90 minutes
- Carries a U-factor of .17
- Matching vinyl coated wood jambs available – DuraTech-FX™
- Fully insulated with an inner core of environmentally friendly polyurethane foam
- 10-year limited warranty

WIDE STEEL

4 ft. Wide Doors

Wider openings allow for small equipment, motorcycles, lawn mowers and other large items to pass through without requiring an overhead or double door.

Ideal for agricultural building, yard barns, garage service entrances and ADA applications.

Features a durable 22-gauge steel door panel with a wood stile and rail system along with a composite bottom rail. Available as a flush slab in 6/8 height.

Fully insulated with an inner core of environmentally friendly polyurethane foam.

TRUKOTE COLLECTION

The TruKote Collection is a pre-finished, insulated steel door that is designed for strength, security, and durability. No painting or staining is needed. These doors are ready to install and provide years of lasting beauty with their durable white finish.

Key Features

- Full steel-edge perimeter grants an industry-leading Grade 40 Security Rating
- Polyurethane foam inner core
- 24-gauge hot-dipped galvanized steel that resists corrosion
- 20-gauge hinge reinforcements
- 90-minute fire-rated
- Finished with white polyester paint that requires no additional finishing to maintain its bright white color
- Equipped with the adjustable hinge plate system (optional)
- No finishing or maintenance required
- 10 year limited lifetime warranty

TAYLORKOTE COLLECTION

The TaylorKote Collection is a pre-finished steel door designed for commercial projects. Factory finishing eliminates errors that may occur from finishing in the field, while also providing enhanced durability and a smoother appearance. TaylorKote Commercial Finish is idea for large commercial and multi-family jobs.

Key Features

- Available in 8 standard colors on the Cambridge Smooth Steel Collection
- Each color has been formulated to match our Adjustable, Two-Piece QuikFit Frames for a professional, finished look.
- Durable, exterior grade latex paint
- Baked-on curing process for superior paint adhesion
- Factory applied with an innovative, 3-step finishing process that provides consistent coverage
- 25 quantity order minimum

**Colors above are not an exact match and may appear different on the door*

QUIKFIT FITTED DOOR SYSTEM

QUIKFIT
FITTED DOOR SYSTEM

Key Features

- 90 minute fire-rated
- Ideal for multi-family and light commercial applications
- Features a 22- or 24-gauge steel-edge smooth steel door, pre-hung into an adjustable steel frame for ease of installation
- Available in 6/8, 7/0, and 8/0 heights
- Full steel-edge perimeter provides additional strength and a Grade 40 security rating
- Design Pressure Ratings of +/-60 up to 3670
- Two-piece adjustable steel frame - base jamb is installed in the opening and closer trim piece is attached from the opposite side
- 4-1/2” to 9-1/2” wall construction (1” adjustment) for 1-3/4” door
- 10-year warranty on steel-edge door panel, 1-year warranty on adjustable steel frame
- Florida Building Code (FBC) and Texas Department of Insurance (TDI) approved

JAMBS

DURA-FRAME by GM Wood Products

DURA-FRAME: THE NATURAL SOLUTION FOR ROT-FREE DOOR SYSTEMS

Dura-Frame is constructed for long-lasting durability. Made from Alaskan Yellow Cypress, which is one of the planet's most durable rot and insect resistant woods and finger-jointed to the bottom of the premium pine frame component. Dura-Frame is end-sealed with Hydro-Shield which prohibits moisture from entering the substrate ensuring longevity.

FEATURES

- Superior paint and stain adhesion & incredible strength
- Superior value - It's economical
- Sizes available: 4-9/16", 6-9/16" and 12" (12" can be ripped to appropriate width to avoid stacked extensions)
- All covered by Dura-Frame's limited lifetime warranty

THRESHOLDS & SEALS

HIGH-PERFORMANCE THRESHOLDS

Composite Thresholds incorporate the patented ImperiSeal™ technology, a continuous filament that positively seals the adjusting rail to the deck of the sill, thus eliminating any chance of water intrusion through the threshold. The cellular PVC rail is extremely resilient to long-term exposure to temperature changes, wind, and snow.

FEATURES

- Meets code and design requirements
- Precision-engineered rails adjust upward (3/16") and downward (1/16") using flush screws, while the rail interlocks with a high-dam aluminum sill
- Available in mill and bronze finish

MAXIMIZE DOOR SYSTEM PERFORMANCE WITH DOOR SEALS

Help your thresholds and astragals reach their maximum performance potential with Quanex's Imperial weather-sealing solutions for doors that are designed to combat the straw effect during high-wind or stormy conditions.

FEATURES

- Available in beige or bronze color and bulb or fin style

ZEEL FRAME

Updated innovation & design

- ZEEL is a sleek, minimal frame designed to be stained or painted, seamlessly blending into your door.
- Never worry about extreme environments with FiberMate Plus®. ODL's strongest material withstands high temperatures and direct sunlight even when using dark, on-trend paint colors.
- Reduce service calls and warranty issues with Resolve® Sealant. ZEEL is immune to squeeze out and Resolve doesn't degrade over time.
- ZEEL eliminates the need for screws and cumbersome screw hole covers with an innovative clip system, allowing each frame to sit flush to the door.

LAYERED GLASS

Beauty with a surprising twist...

Layered glass takes on a personality of its own as layers of glass interact with one another, with light and with movement. This glass creates dynamic privacy that changes, just as the doorglass patterns do, with light and proximity.

It is subtle beauty with a surprising twist.

CONTEMPORARY COLLECTION

Mistify

Crosswalk

Waterside

Modern & Elegant

The Contemporary Collection is inspired by artisans who truly appreciate beauty in objects for everyday use. Deep bevels, graceful contours, and scrolling grilles and caming lend a feeling of handcrafted antiquity to these designs and an air of gracious hospitality to your home.

Door Code: 607-1P
Door Type: Smooth Steel
Glass Type: Mistify

MISTIFY

Mistify is the playful combination of pattern and texture. The black drizzle pattern is fused to softly textured glass, resulting in a mesmerizing statement piece for any modern entryway and privacy for the home.

This contemporary doorglass design is offered with black grilles between glass for a clean, divided look or as a single doorlight.

MADISON

Renowned Craftsman architect Frank Lloyd Wright advocated that architecture should become one with its surrounding landscape. The Craftsman-inspired design of Madison's geometric pattern and its nickel vein wrought iron finish will fit the "landscape" of your home and complement the special touches you've given it. Madison provides a high privacy level.

INTERNAL GRILLES & BLINDS

This energy efficient glass offers privacy and light control, and the charm of contoured door grilles. The triple-glazed glass suppresses traffic sounds and other unwelcome noises.

- You control the amount of privacy and light coming into your home with a fingertip control – raise, lower, and tilt the blind
- Triple-glazed design reduces heat transmission by up to 28%
- Available in White
- Available with Low-E glass option
- Glass frame is paintable only

ENCLOSED BLINDS

Fully enclosed blinds give you a maintenance-free option for controlling levels of doorglass privacy.
A single fingertip control lets you raise, lower or tilt the blinds.

- Privacy channels on each side eliminate light gaps when blinds are closed – no street light shadows or sunlight glare
- Uniform color in components provides a clean aesthetic look
- Available with Low-E glass option
