

More choices mean more ways for you to freshen the look of your stairs. To our already extensive Espresso Collection we've added two new 5/8" hollow round designs—one with an expanded center diameter, and one with a sophisticated ornate detail. To the Contempo Collection, we've added a 1/2" hollow square marquise center design that pairs well with our plain 1/2" square baluster. All three designs are 44" in length and come powder coated with a low-sheen black finish.
