ABOVE This kitchen was created with the Waterway door style in Cherry finished in Hazelnut and the Waterway door style in Cherry finished in Driftwood with Chocolate glaze. Optional five-piece drawer headers were used.

Find out more about Stains, Tinted Varnish and Glaze on page 111.

Exactly what you want

WE CAN CREATE CABINETS THAT MATCHES ANY PAINT SWATCH.

Bring the swatch to your Fieldstone Cabinetry dealer—that's all it takes to start your custom Tinted Varnish project.

If your heart's desire is a color you spied in a magazine or in a fabric, or you have furniture you want to match or complement, talk to your Fieldstone Cabinetry dealer about preparing a sample of wood that will guide us in creating a stain for your cabinetry.

A custom stain takes more legwork (from both you and us) than a custom paint, but we'll put our heart into it. With good direction from you and our experience creating custom stains, the legwork will result in a beautiful finish you'll be proud to have in your home.

Talk to your Fieldstone Cabinetry dealer about the additional costs and delivery times for a custom color.

IT'S PERFECT! CUSTOM COLORS

Specialty Colors are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

Chateaux is a specialty color for Cherry and Rustic Cherry cabinetry

CHATEAUX IS CREATED by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. Patina is accomplished with 1. rounded corners 2. worn edges 3. knife cuts 4. worm holes 5. rasping 6. dips and 7. light chain distressing that we hand apply to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Brown Chateaux colors are shown on this page. Chateaux is available on Cherry & Rustic Cherry door styles.

To speckle the Chateaux finish, a subtle stain in dark brown is randomly applied across the surface of the finish. These spots will be no larger than the diameter of a pencil eraser.

Specialty Colors are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, an heirloom feel.

Homestead Red

A specialty color for Alder and Rustic Alder

HOMESTEAD RED IS A DEEP RED TINTED VARNISH with several distressing techniques that are applied randomly and heavily. Distressing marks are **1. rounded corners** **2. worn edges** **3. knife cuts** **4. abundant worm holes** **5. rasping** **6. dips** **7. light chain distressing** and **8. chiseling**. They are applied to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Homestead Red is available on all Alder and Rustic Alder door styles.

HOMESTEAD RED

Shown here on the Hartford door style in Alder.
Homestead Red is a Tinted Varnish-based Specialty Color.

THIS ISLAND was created with the Hanover door style in Alder finished in Homestead Red. Standard slab drawer headers were used. The perimeter cabinets were created with the Hanover door style in Maple finished in Villa Black. Standard slab drawer headers were used. The open shelves were created with Cherry finished in Toffee with Ebony glaze.

Chateaux Brittany

A specialty color for Cherry cabinetry

CHATEAUX IS CREATED BY randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. Patina is accomplished with **rounded corners, worn edges, knife cuts, worm holes, rasping, dips** and **light chain distressing** that we hand apply to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability.

Chateaux is available on all Cherry and Rustic Cherry door styles.

CHATEAUX BRITTANY

Shown here on the Tremont door style in Rustic Cherry. Chateaux Brittany is a Stain-based Specialty Color.

DISTRESSING ILLUSTRATED

FIELDSTONE CABINERY USES SEVERAL TECHNIQUES to add character and appeal to cabinetry. They are illustrated on these two pages. All of our distressing marks are added by hand. There is no machine and there is no robot that can successfully duplicate what the eyes and hands of an artisan achieve through personal handling of the cabinetry.

A Light Touch

SPATTERING

Spattering is a dark stain, hand applied randomly to the cabinetry.

- Spattering on stain with glaze combinations is free of charge.
- Spattering on an unglazed stain is available on all wood types at an upcharge.

LIGHT CHAIN DISTRESSING

Light Chain Distressing is used to create Amaretto, Bordeaux, Chateaux, Homestead, Licorice, Linen and Oatmeal. It is included in Cottage Distressing and Old World Distressing.

- Light chain distressing on Tinted Varnish with glaze combinations is free of charge.

Light chain distressing is available at an upcharge on:

- all stains on any specie.
- all stain with glaze combinations on any specie.
- all Tinted Varnish on Maple, Oak or Quarter Sawn Oak.

Chiseling is used to create Homestead.

Rasping is used to create Chateaux and Homestead and it is included in Old World Distressing.

Speckling is used to create Chateaux.

ARTISAN EFFECTS

DIPS

Dips are used to create Chateaux and Homestead and they are included in Old World Distressing.

KNIFE CUTS

Knife Cuts are used to create Chateaux and Homestead and they are included in Old World Distressing.

PADDING

Padding is used to create Chateaux.

ROUNDED CORNERS

Rounded Corners are used to create Amaretto, Bordeaux, Chateaux, Homestead, Licorice, Linen and Oatmeal. They are included in Cottage Distressing and Old World Distressing.

RUB THROUGH

Rub Through is used to create Amaretto and Bordeaux.

SPECKLING, LIGHT BROWN

Speckling is used to create Linen.

ABUNDANT WORM HOLES

Abundant Worm Holes are used to create Homestead.

WORM HOLES

Worm Holes are used to create Chateaux and they are included in Old World Distressing.

WORN EDGES

Worn Edges are used to create Amaretto, Bordeaux, Chateaux, Homestead, Licorice, Linen and Oatmeal. They are included in Cottage Distressing and Old World Distressing.

THIS KITCHEN was created with the Heritage door style in Maple finished in Ivory Cream with Chocolate glaze and Cottage Distressing. Optional five-piece drawer headers were used.

Parkside door style in Maple finished in Peppercorn with Nickel glaze and Cottage Distressing

Bainbridge door style in Hickory finished in Honey with Chocolate glaze and Cottage Distressing

ARTISAN EFFECTS COTTAGE DISTRESSING

ROUNDED CORNERS

COTTAGE DISTRESSING IS A SWEET, WELCOMING LOOK CREATED WITH ROUNDED CORNERS AND WORN EDGES. A third technique, light chain distressing, is optional. Glaze brings out the wood's unique texture, and a durable topcoat completes the process, protecting both the color and the marks.

Cottage Distressing is available on

- Any Stain with Glaze combination. See page 62.
- Any Tinted Varnish with Glaze combination. See page 63.

LIGHT CHAIN DISTRESSING
OPTIONAL

WORN EDGES

Augustine door style in Oak finished in Mushroom with Latté glaze and Cottage Distressing

Monte Carlo door style in Hickory finished in Cappuccino with Chocolate glaze and Old World Distressing

Look for this icon on pages 62–63 for color combinations available with Old World Distressing.

OLD WORLD DISTRESSING BLENDS YOUR NEW CABINERY WITH TODAY'S POPULAR DISTRESSED FURNITURE PIECES. Certain distressing techniques are randomly applied to the face of your cabinetry throughout the design. These techniques (illustrated at right) are:

- 1. rounded corners**
- 2. light chain distressing**
- 3. worm holes**
- 4. dips**
- 5. rasping**
- 6. knife cuts**
- 7. worn edges.**

personalize your cabinetry
Style Options

THIS BATH was created with the Milan door style in Cherry finished in Butterscotch. Resin inserts in the Linea Ivory pattern were used in the doors.

Hudson door style with single furniture pegs

Hudson door style with double furniture pegs

FURNITURE PEGS

This option gives rustic character to doors and drawers. A $\frac{5}{16}$ " square wooden peg is driven into a $\frac{3}{8}$ " diameter drill hole. The gaps between the peg and the hole are visible and are not filled. Single and double pegs (illustrated above) are available.

Look for this symbol under doors pictured on pages 86–94, 98–99.

Hudson door style without furniture pegs

FREE EDGE PROFILES

EDGE PROFILES

Many door styles can receive a variety of edges. Maybe you've found a door that you love, and you want to tweak it a bit. One place to start is the outside edges of a door, and how each edge looks.

Look for a listing of optional edges under doors pictured on pages 86–94.

FIVE-PIECE DRAWER HEADER

A five-piece drawer header is standard on select door styles. A door's standard drawer header is listed under each door on pages 74–82. Look for the words "Drawer header is five-piece."

A five-piece drawer header is also an option on many door styles. Those door styles are shown here.

Look for this symbol "5" under doors pictured on pages 86–94.

Wood Types

ALDER IS A SOFTER WOOD WITH A FINE STRAIGHT GRAIN AND EVEN TEXTURE. Color is light brown with yellow or reddish tinge, with little difference between heartwood and sapwood. Alder does not evolve in color or darken when exposed to light or heat as other woods do, and takes stains and finishes well. More than some of the other woods, care must be taken to avoid damage due to its softer nature. Some small tight knots can be found with standard Alder.

CHERRY DISPLAYS A DISTINCTIVE GRAIN PATTERN AND WARM COLOR. The color ranges from nearly white to dark reddish brown. Dark pockets, pin knots, and random streaks are common. More than most woods, Cherry will darken when exposed to light, especially in light stains. The more sun Cherry receives, the faster it will darken. This will be most evident in new wood and will slow as it ages.

HICKORY IS A HEAVY, STRONG WOOD. It is known for flowing, vibrant grain patterns and dramatic color variations. Hickory can also exhibit random pecks, burls, and mineral streaks. Hickory's color ranges across a wide spectrum, from nearly white to dark brown.

RUSTIC ALDER, RUSTIC CHERRY AND RUSTIC HICKORY REFERS TO THE RUSTIC VERSIONS OF THESE WOOD TYPES. It is characterized by knots, burls and mineral streaks found on center panels, stiles and rails of the door, and on the drawer headers, which could impact hardware placement. Knots will be sound and will be closed, but certain angles could show light through the knots. Glazing rustic wood types will enhance these unique characteristics.

△ THIS SYMBOL IS SHOWN UNDER DOORS ON PAGES 86–94 AND ON PAGES 98–99 TO INDICATE THEY ARE AVAILABLE IN RUSTIC.

LYPTUS IS A HARD, FINE-GRAIN HARDWOOD WITH A RICH, WARM TONE. Lyptus comes from fast-growing eucalyptus trees that are ready to be harvested within 14 to 16 years of planting. These trees are grown on non-tropical, certified plantations. Color variations can be extreme, but they are minimized when you choose a darker stain. More than most woods, Lyptus mellows and darkens with exposure to light. When Lyptus is stained in a dark color, it looks very much like mahogany.

MAPLE IS A VERSATILE HARDWOOD WITH A FINE, SMOOTH GRAIN. It varies in color from nearly white to a slightly reddish brown. Mineral or sugar streaks occur naturally in Maple and can vary from piece to piece. Variations will be more noticeable in lighter stains.

OAK IS A STRONG WOOD WITH A LONG LINEAR GRAIN, OFTEN DISPLAYING TINY RAYS. You may notice small pinholes and tight knots. Color will range from golden blonde to deeper reddish tones. This cut of Oak is known as flat sawn. **QUARTER SAWN OAK** is milled at an angle of 60 to 90 degrees from the grain, allowing rays and flecks to become visible, giving the wood a unique, often vintage, character and dimension.

WALNUT IS A STRONG, STABLE AMERICAN HARDWOOD known for wide color variation. It ranges in color from creamy white to a medium purplish brown. Walnut cabinetry will have both flowing grain and straight grain. This combination is a treasured characteristic of Walnut, and is showcased when Walnut is finished in Natural. However, Walnut takes all available stains well. Walnut is a favorite choice for furniture and furniture grade cabinetry, such as Fieldstone Cabinetry.

FIELDSTONE CABINETRY IS ENVIRONMENTALLY RESPONSIBLE.

Fieldstone Cabinetry is CARB II compliant and ESP certified. Kitchen Cabinet Manufacturers Association Environmental Stewardship Program. All products impact the environment. For ESP program criteria, visit kcma.org.

Fieldstone Cabinetry is a certified brand in the Kitchen Cabinet Manufacturers Association (KCMA) Environmental Stewardship Program. The program recognizes companies that demonstrate an ongoing commitment to sustainability including the use of environmentally responsible materials in cabinet products and minimized environmental impacts realized through recycling wastes and using low emission coatings. By achieving this certification, Fieldstone Cabinetry is going beyond minimum requirements and demonstrates leadership in growing a sustainable company.

WARRANTY

Fieldstone Cabinetry's construction, materials and all finishes are covered by a Limited Lifetime Warranty.

OVERLAY AND INSET DOOR STYLES

OVERLAY CABINETRY HAS DOORS THAT "LAY OVER" THE TOP OF THE CABINET'S FACE FRAME. There are two styles of overlay doors: Modern and Traditional. A Modern door style shows less of the cabinet's face frame than a Traditional door style. A Traditional door style shows the most of the cabinet's face frame. See images on pages 86–87.

INSET CABINETRY HAS DOORS THAT ARE PRECISELY "SET INTO" THE CABINET'S FACE FRAME. We manufacture inset cabinetry with tight reveals and take great care to create square, true cabinets. When adding inset cabinetry to your home, consider:

1. Quality installation is a must. If cabinets are not installed properly, doors may appear warped even though they are not. Every homeowner should expect their walls and floors to have variations; a well-qualified installer can properly shim inset cabinetry so it does not become out of square.
2. Homeowners should be prepared to adjust their doors seasonally as temperatures change.
3. Wall and utility wall inset cabinets are 12" deep. The standard inside storage dimension is 10 $\frac{3}{4}$ ". Unless the cabinet is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware.

Specialty Colors have characteristics that cannot be captured on a color chip, so color chips are not available in Amaretto, Antiquity, Bordeaux, Chateaux, Homestead, Licorice, Linen, Oatmeal and Villa. Request a door sample to view these unique, beautiful colors.

Specialty Colors are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

STAIN

A stain is a basic yet substantial finish that adds color to wood while revealing the beauty of the grain. The wood type affects the color of the stain, so the same stain will look different on each wood type. In some cases, the difference is dramatic. For the richest, most consistent color coverage, we apply the stain and then hand rub it into the wood. There are no machine shortcuts: elbow grease is the only way to coax the luster from stained wood.

TINTED VARNISH

The best way to describe Tinted Varnish is to say it gives cabinetry a paint-like finish. However, our Tinted Varnish is much more durable than paint. Throughout the country, this type of finish is also called “enamel” or “opaque”. Tinted Varnish is available on Maple, Oak and Quarter Sawn Oak cabinetry, and each wood yields a different look. The grain of Maple wood is concealed by Tinted Varnish and the grain of Oak and Quarter Sawn Oak shows through Tinted Varnish.

GLAZE

Fieldstone Cabinetry has five glaze colors: Bronze, Chocolate, Ebony, Latté and Nickel. Glazes are available to layer over both stains and Tinted Varnishes. We apply the glaze by hand and then wipe it off by hand. When our craftsman wipes off the glaze, he or she can best use the glaze to define the details in that particular kitchen. The profiles on a door and drawer, and other details on cabinetry, such as corbels, rosettes or shells, are stunning when glazed. We glaze every part of your cabinetry by hand—doors, drawers, moulding and panels.

OPTIONS FOR STANDARD PALETTE COLORS

The standard palettes for Stain and Tinted Varnish are shown on pages 62–63.
