DURA-FRAME™

by: GM Wood Products

The Natural Solution for rot-free door systems

Guaranteed for life against ground rot, decay and insect damage

- Superior paint and stain adhesion
- Superior construction for long-lasting durability
- Superior value – It's economical

DURA-FRAME™ is:

Alaskan Yellow Cypress, one of the planet's most durable rot resistant woods, finger-jointed to the bottom of premium pine frame component. DURA-FRAME™ is end-sealed with DURA-SEAL™, and primer coated with DURA-PRIME™, G-M Wood Products' exclusive high-durability coatings, yielding exceptional value and rot-free performance. *It's environmentally responsible, renewable, and naturally rot-resistant...no chemicals added!*

Alaskan Yellow Cypress: One of the planet's most durable woods:

- Naturally resistant to rot & insect attack
 - Unique natural compounds make it highly resistant to decay, molds, fungus, termite and insect attack
 - Found in nature up to 1200 years old with over 60 growth rings per inch
- Exceptional physical properties
 - Incredible strength
 - Resistance to wear, splitting, and impact
 - Excellent nail and screw holding strength
- Superior Finishing qualities
 - Great paint, stain and glue adhesion
 - Superior machining and sanding ability

Complete product offering

- Door Jambs
- Brick Mould
- Mull Posts
- Mull Casing
- Custom Components

All covered by DURA-FRAME™'s limited lifetime warranty

Nature's Miracle is
the Natural Solution

Alaskan Yellow Cypress
(Also known as Alaskan Yellow Cedar)

One of the planet's most
durable woods:

Alaskan Yellow Cypress (also known as Alaskan Yellow Cedar) is found in nature up to 1200 years old, and is the wood of choice in many rot-proof and weather resistant applications such as Japanese temples (lasting over 500 years), docks, bridges, boat hulls, stadium seating and high-end outdoor furniture. Its unique natural compounds make it highly resistant to decay, molds, fungus, termite and insect attack.

It's environmentally responsible,
renewable, and naturally rot-
resistant with no chemicals added!

First used by West Coast Indians for their historic Totem Poles and Great War canoes, Alaskan Yellow Cypress is the wood of choice in many rot-proof and weather resistant applications:

- Japanese Temples (lasting over 500 years)
- Japanese dock systems
- Racing boat hulls and decks
- Decking and siding
- Stadium seating
- Outdoor furniture
- Water reservoirs
- Chemical tanks

DURA-FRAME™ is: Alaskan Yellow Cypress, one of the planet's most durable rot resistant woods, finger jointed to the bottom of premium pine frame component. DURA-FRAME™ is end-sealed with DURA-SEAL™, and primer coated with DURA-PRIME™, G-M Wood Products' exclusive high-durability coatings, yielding exceptional value and rot-free performance.
