Ranch Bullnose  
Colonial

# Introducing Uni-White

Uni-White is an innovative high quality, durable white jamb that is incredibly competitively priced. Compared to primed or gesso coated jambs, Uni-White is white throughout the product so the color is consistent even if sanded! The product can be machined and/or painted more uniformly.

- Can be sanded without needing to be re-primed.
- Will not chip and crack like gesso coated products.

Uni-White is simply unique. Repairs before final painting are made quicker and easier thanks to the through and through consistent coloring.

## Additional Capabilities

**Pressing Specs:**  
8'x8' Hot Press  
4'x10' Cold Press

**Ripping Specs:**  
60" wide arbor gang rip saw
